Investment Portfolio Structure as of June 30, 2023

In the framework of its investment policy, Pension fund invests in treasury bills and bonds issued by the government of Republic of Albania, taking into account the fact that trading activity in the fixed income secondary market is very limited.

Instrument

	<i>In % of Fund's assets</i>
<i>Treasury Bonds</i>	99.27%
<i>Deposits / Current account</i>	0.73%

Auctions of the securities issued in ALL from the Government of the Republic of Albania are relatively frequent: 12M Treasury Bills are issued twice a month; 2-year bonds once a month; 7 and 10-year bonds are issued on a quarterly basis. The government organizes the auctions of 5- and 3-year reference bonds with a frequency every 2 months, for each maturity. The investment strategy remains focused on long-term investments.

Net asset value is roughly ALL 1.3 billion as of June 30, 2023.

Developments and information on the performance of financial markets in June

The assets of Pension Fund are invested only in T-bills and T-bonds issued by Albania Government and as a result the fund is exposed to changes in the interest rates of these securities. Thus, the Investments Funds are not directly related to

international markets but are mainly affected by developments in the domestic market, such as changes in the interest rates of Albanian Government securities.

During June, the interest rates of the Albanian Government securities in the domestic market generally had a downward trend. The yield of the 12 months Treasury Bill resulted at 3.086% decreasing with 0.35% compared to the auction rate in May. Regarding the Treasury bonds auctions, the 2-years bond auction, issued in LEK resulted at 3.93% decreasing with 0.23% compared to the last auction rate. The 7-years bond auction resulted at 5.08%, decreasing with 0.13% compared to the last auction. While the 3-years benchmark bond auction resulted at 4.43%, decreasing with 0.05% compared to the last auction and the 5-years benchmark bond auction resulted at 4.62%, slightly increasing with 0.02% compared to the last auction.

The chart below gives an overview of interest rate evolution of Treasury Bills and Bonds issued by the Albanian government during the 1-year period June 2022 – June 2023. For the 3 and 5 years reference bonds are presented the fixing yields, calculated from contributors' quotations at the end of June.

Fund Performance and unit value development June 30, 2023

Net annual return for the period 30 June 2022 – 30 June 2023 is **4.30%**.

The unit value of Pension Fund has kept following an upward trend, increasing by **+0.37%** during the month of June.

The net annual return is lower compared to the previous years because government securities interest rates, in which the fund invests, have been decreasing in the recent years. It should be taken into account that the return varies depending on market conditions, such as changes on the interest rates of Government securities.

Historical Performance for Raiffeisen Pension Fund per year

Investors of Raiffeisen Pension Fund are advised to have a longer horizon investment (possibly until retirement age, five years before the age specified in law) in order to obtain a maximum return on investment, to improve the standard of living in retirement age and to avoid penalties in case of premature withdrawal.
