Risk and Reward Profile

Low Risk High Risk
Low Return High Return

Raiffeisen Vizion fund's forecasted Risk and Reward profile belongs to the third category.

This level of the indicator was calculated by applying the fund's investment policy to the historical interest rate data of the last 5 years. The synthetic risk and reward indicator corresponds to an integer, used to rank the Fund's risk profile on a scale of 1 to 7, based on increasing level of volatility.

The lowest category does not mean that the investment is riskless. This indicator aims to offer the investor an overview of the fluctuations in Fund unit price based on historical performance. Historical data used to generate the indicator cannot constitute a guarantee on future risk profile.

Deposits / CA / Receivables	12.28%

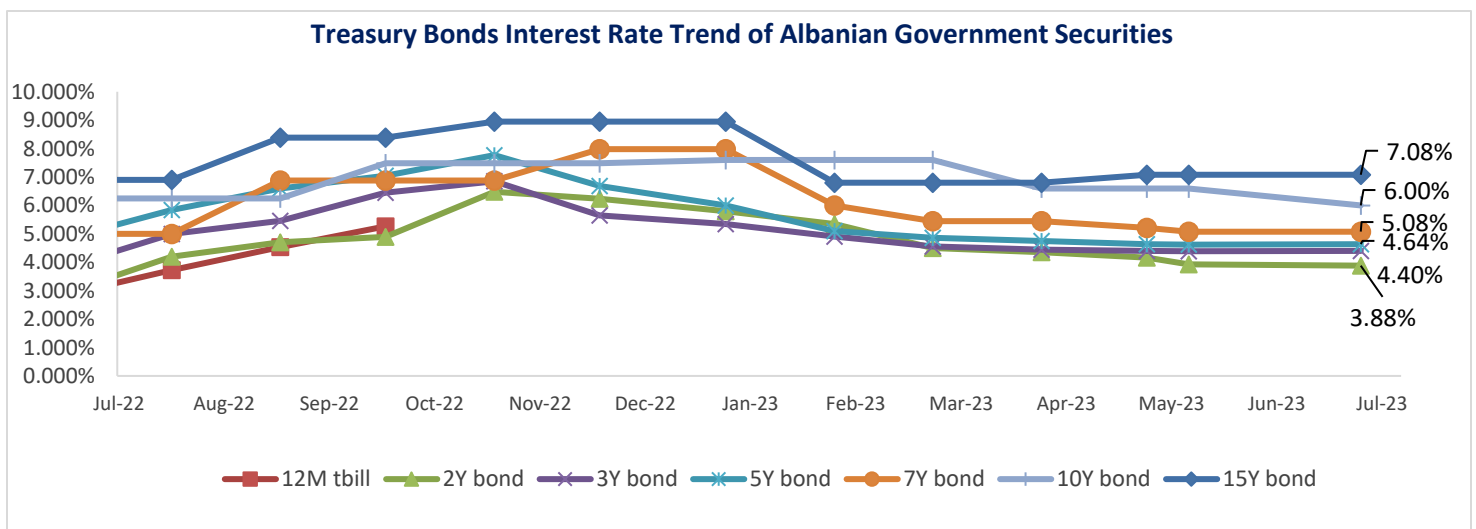

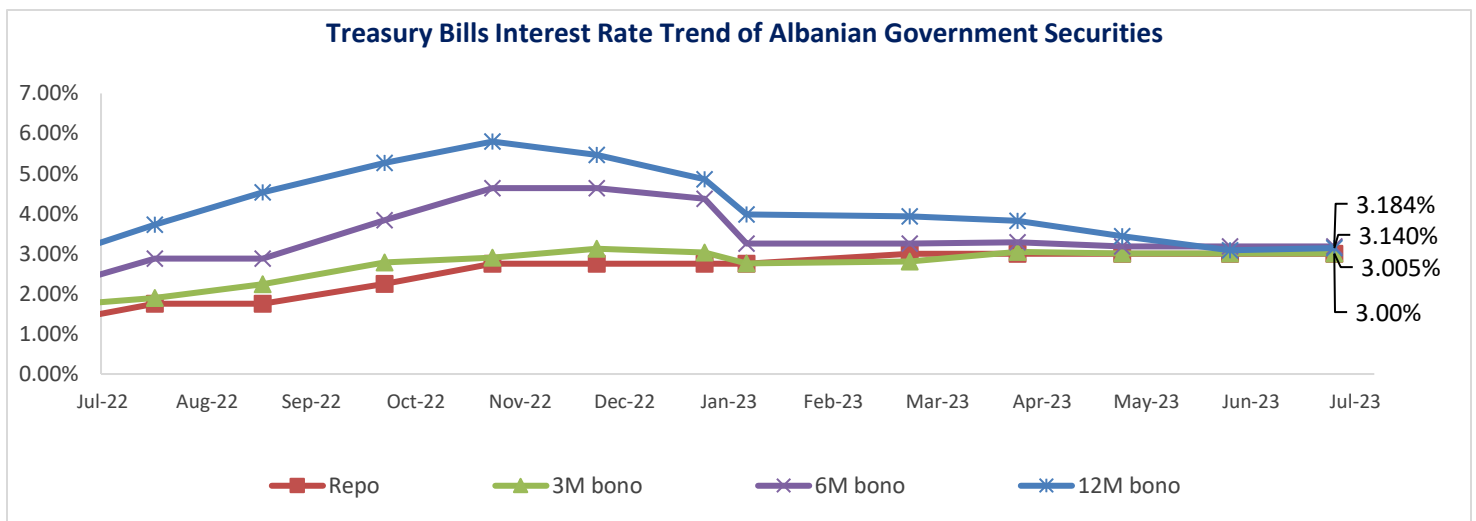

The 12M Treasury Bills are issued twice a month; 2-year bonds once a month; 7 and 10-years bonds are issued on a quarterly basis. The government organizes the auctions of 5- and 3-year reference bonds with a frequency every 2 months, for each maturity.

Developments and information on the performance of financial markets in July

The base interest rate announced by the Bank of Albania stands at the level of 3.00%. The monetary policy followed during this period has had its effect and as a result the inflation rate has decreased during these last months. In July, the inflation rate decreased at 4.20%, compared to 4.5% in June. The treasury bills and bonds interest rates of Albania Government, where assets of Vizion Fund are invested, have generally decreased during the first months of 2023. The assets of Vizion Fund are invested only in T-bills and T-bonds issued by Albania Government and as a result the fund is exposed to changes in the interest rates of these securities therefore, the decrease in interest rates has had a positive impact on the investment portfolio.

During July, the interest rates of the Albanian Government securities in the domestic market had a mix trend. The yield of the 12 months Treasury Bill resulted at 3.14% increasing with 0.05% compared to the auction rate in June. Regarding the Treasury bonds auctions, the 2-years bond auction, issued in LEK resulted at 3.88% decreasing with 0.05% compared to the last auction rate. The 10-years bond auction resulted at 6.00%, decreasing with 0.60% compared to the last auction. While the 3-years benchmark bond auction resulted at 4.462%, increasing with 0.03% compared to the last auction and the 5-years benchmark bond auction resulted at 4.616%, decreasing with 0.06% compared to the last auction.

The chart below gives an overview of interest rate evolution of Treasury Bills and Bonds issued by the Albanian government during the 1-year period July 2022 – July 2023. For the 3 and 5 years reference bonds are presented the fixing yields, calculated from contributors' quotations at the end of July.

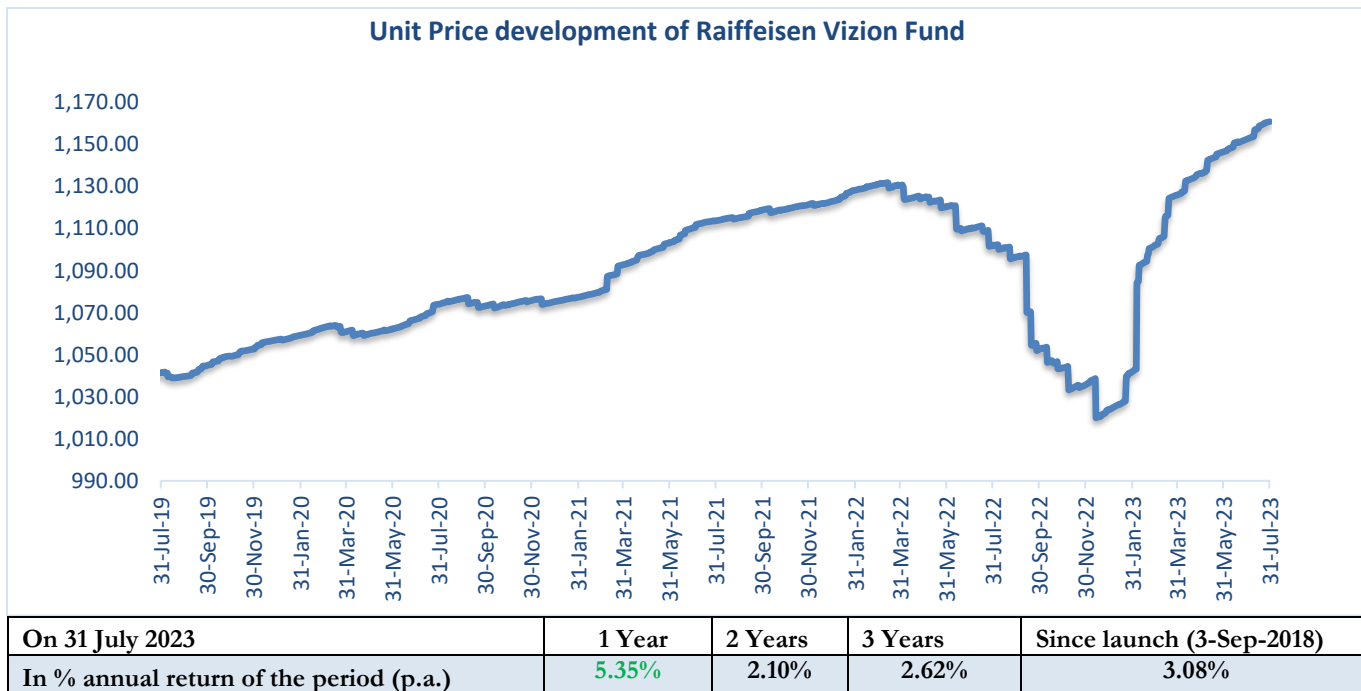

Fund Performance and unit value development July 31, 2023

The annual return for the period 31 July 2022 to 31 July 2023 is **5.35%**, while the annual return for a 2-year period is **2.10%**. The unit value of Vizion Fund had increased by **+0.73%** during July, as a result of the decrease of the securities interest rates issued by the Albanian Government. The fund recovered a good part of last year's losses caused by the increase in the interest rates of the Albanian Government bonds.

Investors should bear in mind that the investment return varies based on market conditions, especially changes in interest rates of Albanian government securities. Thus, when interest rates increase, the securities value in the portfolio decreases and consequently the rate of return for the previous period decreases. The opposite happens when interest rates fall.

Therefore, the Fund unit value can be volatile. Volatility is a natural part of investment funds, and it can never be eliminated, so the unit price of the fund may also fall, not only increase.

Historical Performance for every year for Raiffeisen Vizion Fund per year

Investors of Raiffeisen Vizion are subject to a minimum investment period of 2 years. All withdrawals made prior to the fulfillment of this 2-year period will be subject to an exit fee of 2% of the value of redeemed units.

In addition to this minimum investment period, investors in Vizion Fund and of all Funds managed by Raiffeisen Invest are advised to have a long investment horizon, to obtain a maximum return on investment. For Vizion Fund, this recommended investment horizon is 3 years, in order to achieve the fund's performance objective in light of the long-term nature of its investments, as outlined in the fund's investment strategy. We do encourage investors to maintain their investment by not changing their investment objective of staying in fund driven by the unusual situation created by global pandemic, because in this way they will not risk getting out of the fund at the wrong time for their investment.

Data on fund return referring to the past are only indicative and do not represent a promise or guarantee of the fund return in the future.
