Investment Portfolio Structure as of January 31, 2024

In the framework of its investment policy, Prestigj fund invests mainly in treasury bills and bonds issued and guaranteed by the government of Republic of Albania.

Auctions of the securities issued in ALL from the Government of the Republic of Albania are relatively frequent: 12M Treasury Bills are issued twice a month; 2-year bonds once a month; 7 and 10-year bonds are issued on a quarterly basis.

The government organizes the auctions of 5- and 3-year reference bonds with a frequency every 2 months, for each maturity.

<i>Instrument</i>	<i>In % of Fund Assets</i>
Reverse Repurchase Agreement – Rev Repo	4.94%
Deposits / CA	12.92%
Treasury bills	21.79%
Treasury bonds	60.36%

The investment strategy remains focused on Albanian government securities, but in addition to the latter, the fund allocates a certain portion of its assets to short-term deposits in order to fulfill investors' liquidity needs in a timely manner.

Net asset value is at around ALL 31.3 billion as of 31 January 2024.

Developments and information on the performance of financial markets in January

On January, the base rate is unchanged at the level of 3.25%. The last published inflation rate in December was 4.00%. The assets of Prestigj Fund are invested only in T-bills and T-bonds issued by Albania Government and as a result the fund is exposed to changes in the interest rates of these securities.

The Albanian Government securities interest rates have followed a mix trend during January, but without major changes. The 2-years bond auction resulted at 4.21%, decreasing with 0.02% compared to the last auction and the 5-years benchmark bond auction yield resulted at 5.623%, decreasing with 0.03% compared to the last auction.

The yield of the 12 months Treasury Bill resulted at 3.621% increasing with 0.26% compared to the auction rate in December and the 10-years bond auction yield resulted at 6.78%, increasing with 0.34% compared to the last auction.

The chart below gives an overview of interest rate evolution of Treasury Bills and Bonds issued by the Albanian government during the 1-year period January 2023 – January 2024. For the 3 and 5 years reference bonds are presented the fixing yields, calculated from contributors' quotations at the end of January.

Fund Performance and unit value development January 31, 2024

The net annual return for the period 31 January 2023 to 31 January 2024 is **5.56%**. The unit value of Prestigj fund had increased by **+0.37%** during January.

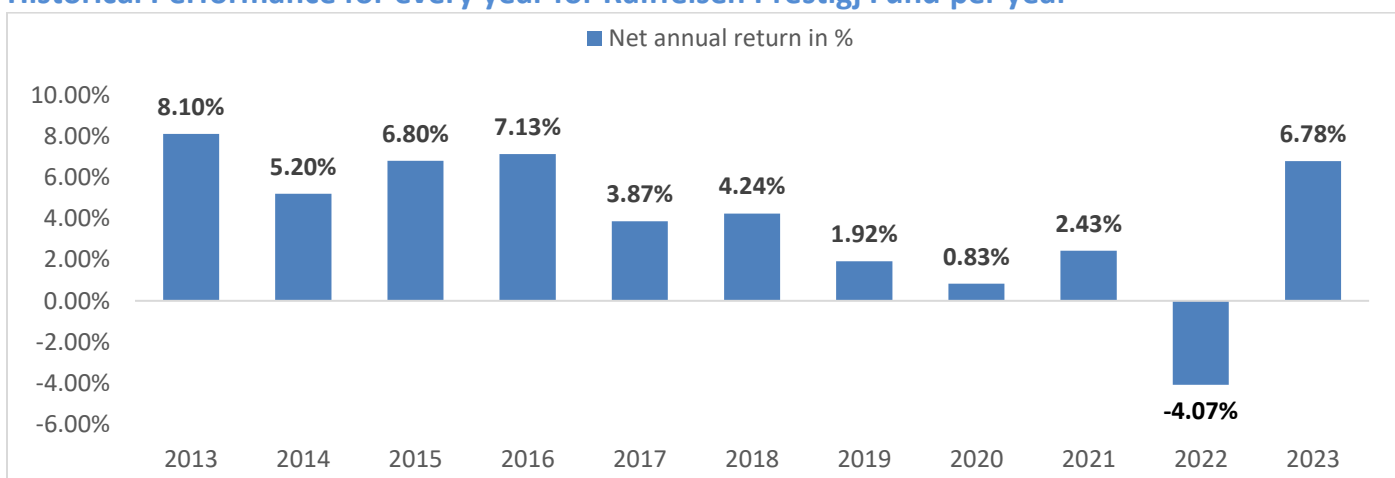

The Fund continues to have the same investment portfolio structure, investing in T-Bill and T-Bond issued by the Albanian Government. As a result, the portfolio value varies when securities interest rates change and investment return varies based on market conditions, especially changes in interest rates of Albanian government securities. Thus, when interest rates increase, the securities value in the portfolio decreases and consequently the rate of return for the previous period decreases. The opposite happens when interest rates fall. Therefore, the Fund unit value can be volatile. Volatility is a natural part of investment funds, and it can never be eliminated, so the unit price of the fund may also fall, not only increase.

Historical Performance for every year for Raiffeisen Prestigj Fund per year

Investors of Raiffeisen Prestigj Fund and of all Funds managed by Raiffeisen Invest are advised to have a long investment horizon to benefit from an optimal return on investment and thus in the medium or long term to be able to recover the negative effects, which are created in short-term. We do encourage investors to maintain their investment by not changing their investment objective of staying in fund driven by the unusual situation created by global pandemic, because in this way they will not risk getting out of the fund at the wrong time for their investment.
