Investment Portfolio Structure as of September 30, 2024

In the framework of its investment policy, Prestigj fund invests mainly in treasury bills and bonds issued and guaranteed by the government of Republic of Albania.

Auctions of the securities issued in ALL from the Government of the Republic of Albania are relatively frequent: 12M Treasury Bills are issued twice a month; 2-year bonds once a month; 10 and 15-year bonds are issued only on a quarterly basis.

The government organizes the auctions of 5- and 3-year reference bonds with a frequency every month, for each maturity. The investment strategy remains focused on long-term investments.

<i>Instrument</i>	<i>In % of Fund Assets</i>
Reverse Repurchase Agreement – Rev Repo	3.77%
Deposits / CA	5.04%
Treasury bills	26.16%
Treasury bonds	65.04%

The investment strategy remains focused on Albanian government securities, but in addition to the latter, the fund allocates a certain portion of its assets to short-term deposits in order to fulfill investors' liquidity needs in a timely manner.

Net asset value is at around ALL 34.3 billion as of 30 September 2024.

Developments and information on the performance of financial markets in September

On September the base rate remained unchanged at the level of 3.00%. Meanwhile, the inflation rate remains at low levels and under control according to the Bank of Albania.

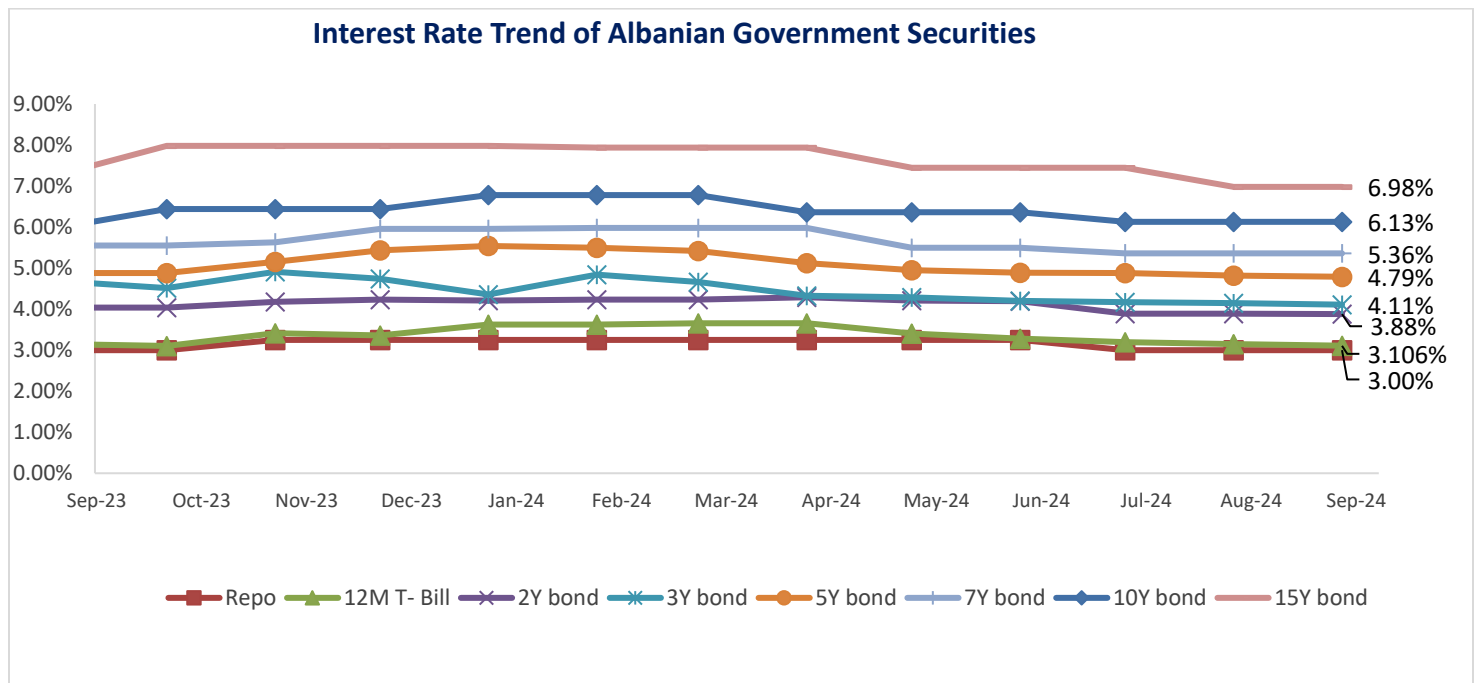

The assets of Prestigj Fund are invested only in T-bills and T-bonds issued by Albania Government and as a result the fund is exposed to changes in the interest rates of these securities.

In September the Albanian Government securities interest rates have gained stability. They remained almost unchanged decreasing only few basis point during September.

The yield of the 12 months Treasury Bill resulted at 3.106% decreasing by 0.05% compared to auction rate in August.

Regarding the treasury bonds, the 2-years bond auction resulted at 3.88% decreasing slightly by 0.01% compared to the last auction. The 3 and 5-years benchmark bond auction yield resulted at 4.092% and 4.763%, decreasing both by 0.03% compared to the last auctions.

The chart below gives an overview of interest rate evolution of Treasury Bills and Bonds issued by the Albanian government during the 1-year period September 2023 – September 2024. For the 3 and 5 years reference bonds are presented the fixing yields, calculated from contributors' quotations at the end September.

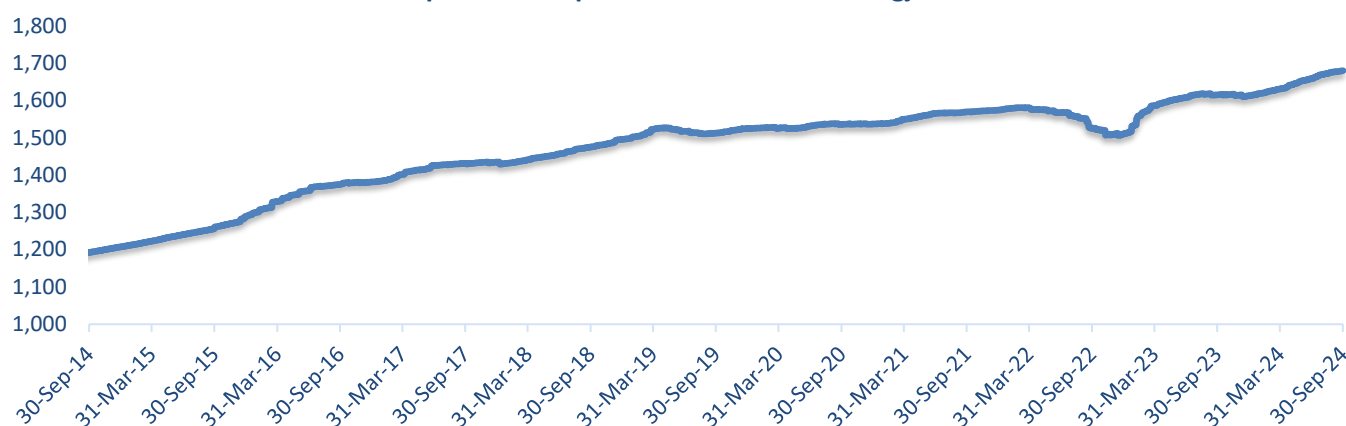

Fund Performance and unit value development September 30, 2024

The net annual return for the period 30 September 2023 to 30 September 2024 is **4.01%**. The unit value of Prestigj fund increased by **+0.24%** during September. The decrease of the Albanian government securities interest rates has had a positive impact on the investment portfolio of the Prestigj fund.

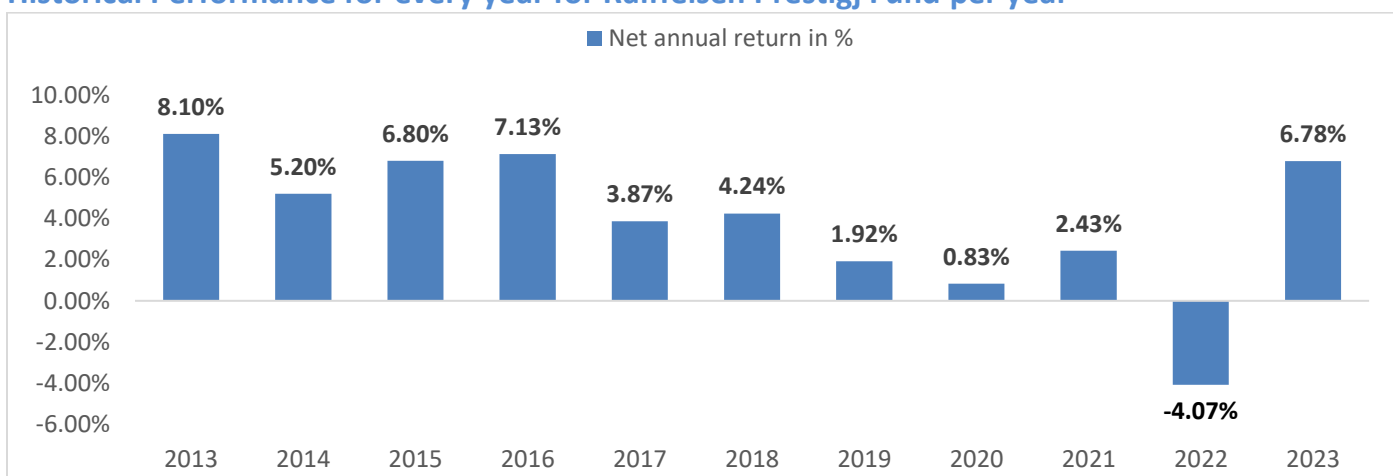

The Fund continues to have the same investment portfolio structure, investing in T-Bill and T-Bond issued by the Albanian Government. As a result, the portfolio value varies when securities interest rates change and investment return varies based on market conditions, especially changes in interest rates of Albanian government securities. Thus, when interest rates increase, the securities value in the portfolio decreases and consequently the rate of return for the previous period decreases. The opposite happens when interest rates fall. Therefore, the Fund unit value can be volatile. Volatility is a natural part of investment funds, and it can never be eliminated, so the unit price of the fund may also fall, not only increase.

Historical Performance for every year for Raiffeisen Prestigj Fund per year

Investors of Raiffeisen Prestigj Fund and of all Funds managed by Raiffeisen Invest are advised to have a long investment horizon to benefit from an optimal return on investment and thus in the medium or long term to be able to recover the negative effects, which are created in short-term. We do encourage investors to maintain their investment by not changing their investment objective of staying in fund driven by the unusual situation created by global pandemic, because in this way they will not risk getting out of the fund at the wrong time for their investment.
