

Raiffeisen Vizion fund's forecasted Risk and Reward profile belongs to the third category.

This level of the indicator was calculated by applying the fund's investment policy to the historical interest rate data of the last 5 years. The synthetic risk and reward indicator corresponds to an integer, used to rank the Fund's risk profile on a scale of 1 to 7, based on increasing level of volatility.

The lowest category does not mean that the investment is riskless. This indicator aims to offer the investor an overview of the fluctuations in Fund unit price based on historical performance. Historical data used to generate the indicator cannot constitute a guarantee on future risk profile.

In the framework of its investment policy, Vizion fund invests mainly in treasury bonds issued and guaranteed by the government of Republic of Albania, through the participation in auctions of the primary market and transactions in the secondary market. According to the fund's investment policy, at least 50 – 80% of the fund's assets will be invested in Albanian Government long-term bonds. Net asset value is at around ALL 11.3 billion as of 31 October 2025.

<i>Instrument</i>	<i>In % of Fund Assets</i>
Treasury bonds	87.6%
Deposits / CA / Receivables	12.4%

Auctions of the securities issued in ALL from the Government of the Republic of Albania are relatively frequent: 12M Treasury Bills are issued twice a month; 2-year bonds once a month; 10 and 15-year bonds are issued only on a quarterly basis. The government organizes the auctions of 5- and 3-year reference bonds with a frequency every month, for each maturity. The investment strategy remains focused on long-term investments.

Developments and information on the performance of financial markets in October

In October the base rate remained unchanged at the level of 2.50%. Meanwhile, the inflation rate remains at low levels and under control according to the Bank of Albania. The assets of Vizion Fund are invested only in T-bills and T-bonds issued by Albania Government and as a result the fund is exposed to changes in the interest rates of these securities.

The interest rates of medium and long-term securities issued by the Albanian Government have followed an upward trend during October, except for the 12-month Treasury Bill yield, which has decreased by 0.07%, resulting in 2.50%.

Regarding the treasury bonds, compared to the last auction: The 2-years bond yield resulted at 2.92 % increasing by 0.01% compared to the previous auction; The 3 years benchmark bond yield resulted at 3.846% increasing by 0.11%; The 5 years benchmark bond yield resulted at 4.304%, increasing by 0.17%; The 7-years bond resulted at 4.69%, increasing by 0.24% and the 10-years bond resulted at 5.25%, increasing by 0.20%;

The chart below gives an overview of interest rate evolution of Treasury Bills and Bonds issued by the Albanian government during the 1-year period October 2024 – October 2025. For the 3 and 5 years reference bonds are presented the fixing yields, calculated from contributors' quotations at the end of October.

Fund Performance and unit value development October 31, 2025

The annual return for the period 31 October 2024 to 31 October 2025 is **5.76%**. The unit value of Vizion Fund had decreased by **-0.21%** during October. The increase of the Albanian government bonds interest rates, especially medium and long-term bonds, has had a negative impact on the investment portfolio of the Vizion fund.

Investors should bear in mind that the investment return varies based on market conditions, especially changes in interest rates of Albanian government securities. Thus, when interest rates increase, the securities value in the portfolio decreases and consequently the rate of return for the previous period decreases. The opposite happens when interest rates fall.

Therefore, the Fund unit value can be volatile. Volatility is a natural part of investment funds, and it can never be eliminated, so the unit price of the fund may also fall, not only increase.

Historical Performance for every year for Raiffeisen Vizion Fund per year

Investors of Raiffeisen Vizion are subject to a minimum investment period of 2 years. For any withdrawal or unit exchange made before the end of the minimum investment period of 2 years, an exit fee will be applied. This fee is 1% for investments made into the fund from January 15, 2025.

In addition to this minimum investment period, investors in Vizion Fund and of all Funds managed by Raiffeisen Invest are advised to have a long investment horizon, to obtain a maximum return on investment. For Vizion Fund, this recommended investment horizon is 3 years, in order to achieve the fund's performance objective in light of the long-term nature of its investments, as outlined in the fund's investment strategy. We do encourage investors to maintain their investment by not changing their investment objective of staying in fund driven by the unusual situation created by global pandemic, because in this way they will not risk getting out of the fund at the wrong time for their investment.
